Translated with google translate. Building plot in the municipality of Nerpio. The Municipality of Nerpio is located to the Southwest of Albacete bordering with the provinces of Jan to the West, Granada to the South and Murcia to the East. The Nerpio term is a privileged place due to its impressive and well preserved nature, due to the remains of its millenary history that goes back to the Mesolithic, for the survival also of forms of life that in other places disappeared long ago. The landscape of Nerpio is grandiose. The alternation of large mountain ranges and mountains that reach without difficulty 1,700m and even exceed 2,000 in the case of the Sierra de las Cabras with valleys and ravines offer a continuous surprise to the eye. The scarce population of a term of great extension propitiates the power to taste the solitude and the peace of nature in its purest state. Special mention should be made of the karstic phenomena by which water throughou...
